

**TO
THE EXECUTIVE DIRECTOR OF
BULGARTRANGAZ EAD**

APPLICATION

on connection to the gas transmission network by non-household natural gas clients

SECTION I. APPLICANT DATA

1.1 NAME OF APPLICANT:

1.2 REGISTERED ADDRESS: city/village _____ PoB: _____
street/blvd. _____ building _____ entr. _____
app. _____
Office telephone _____ Mobile _____ Fax: _____ E-mail: _____

1.3 CORRESPONDENCE ADDRESS: city/village _____ PoB: _____
street/blvd. _____ building _____ entr. _____
app. _____
Office telephone _____ Mobile _____ Fax: _____ E-mail: _____

1.4 CONTACT PERSON:

Name: _____ Middle name: _____ Family: _____
Office telephone _____ Mobile _____ Fax: _____ E-mail: _____

SECTION II. DATA ON THE SITE SUBJECT TO CONNECTION

2.1 NAME AND SHORT DESCRIPTION OF THE SITE SUBJECT TO CONNECTION:

2.2 Deadline for commissioning of the site subject to connection: _____

2.3 Location of the site subject to connection:

2.3.1 Compared to the operator of the gas transmission network – (a comprehensive scheme – excerpt of the restored property map/cadastral map or other plans indicating the site subject to connection and the gas transmission network facilities shall be attached):

2.3.2 Proposal for the connection point:

2.3.3 Diameter of the connecting gas pipeline at the connection point _____ and wall thickness of the gas pipeline _____

SECTION III. SPECIFIC REQUIREMENTS TO THE PARAMETERS OF THE TRANSPORTED NATURAL GAS

3.1 Natural gas hourly consumption m³/h at a temperature of 293,15 K (20 °C) and absolute pressure of 0,101325 MPa.

3.1.1 Maximum: m³/h;

3.1.2 Minimum: m³/h

3.2 Natural gas volumes, nominated for transmission at the connection point

- 3.3.1 For 20... - thousand Nm³/y.
3.3.2. For 20... - thousand Nm³/y.
3.3.3. For 20... - thousand Nm³/y.
3.3.4.....

3.3 Natural gas pressure at the connection point:

- 3.4.1 Maximal operating pressure – MPa;
3.4.2 nominal operating pressure – MPa;
3.4.3 Operating pressure guaranteed by the operator of the gas transmission network – MPa.

SECTION IV. MANDATORY DOCUMENTS ACCOMPANYING THE APPLICATION ON CONNECTION TO THE GAS TRANSMISSION NETWORK SUBMITTED BY A NON-HOUSEHOLD CUSTOMER:

4.1 In case of a new site declared to be connected:

- 4.1.1 Characteristics of natural gas volumes nominated for transmission through the connection point;
4.1.2 Characteristics of gas-fired equipment at the site subject to connection;
4.1.3 Certified copy of the judicial decision on registration;
4.1.4 Bulstat number and fiscal number;
4.1.5 Certificate of current legal status according to corporate registration;
4.1.6 Technical description of the site subject to connection.
4.1.7 Filled in Questionnaire about the technical parameters at which connected installations can run and the availability of supply with alternate fuel in connection with the implementation of Regulation (EC) No 994/2010 concerning measures to safeguard security of gas supply
4.1.8 Fuel and power supply at the time of submission of the Application on connection.
4.1.9 Information from the Natural Gas Sales Contract that relates to the connection and is clarified in advance with the transmission company.

4.2 In case of change in the parameters of natural gas transported through the connection point:

- 4.2.1 Change in the nature of consumption.
4.2.2 Change in characteristics of the gas-fired equipment at the site subject to connection.
4.2.3 Filled in Questionnaire about the technical parameters at which the connected installations can run and the availability of supply of alternate fuel in connection with the implementation of Regulation (EC) No 994/2010 concerning measures to safeguard security of gas supply.

Date: _____

Applicant full name:

Signature:

Stamp:

Table 1

Applicant:

(Name of company, city, telephone)

CHARACTERISTIC
of natural gas volumes nominated for transmission/handover at interconnection point

No.	Indicators	Year of interconnection	Including by quarters				First year	Including by quarters				Second year	Including by quarters				Third year	Including by quarters			
			I	II	III	IV		I	II	III	IV		I	II	III	IV		I	II	III	IV
1.	Natural gas /thousand n cu m/																				
2.	Including by months:																				
3.	First																				
4.	Second																				
5.	Third																				
6.	Operating pressure in MPa																				

Note: 1. Gas distribution networks operators shall submit the table for the company in total.

2. The applicant shall indicate the required information for at least three full years.

Prepared by:

(Name, position, telephone)

Table 2

Applicant:

(Name of company, city, telephone)

CHARACTERISTIC
of equipment at, which will run on natural gas after the interconnection
/change in the characteristic

No.	Name and trademark of gas installation (furnaces, boilers, etc.)	Indoors	Number	Natural gas hourly consumption of each installation -Nm ³ /h			Type of reserve fuel	Minutes required to switch
				Minimum	Nominal	Maximum		

Note: Hourly consumption is determined at t° 293.15°K (20°C) and absolute pressure of 101 325 Pa.
